

DCPNS Insulin Pump Education Day 2023: *Working Together to Drive Change*

Thank you!

We are delighted to report that our **DCPNS Insulin Pump Education Day 2023: Working Together to Drive Change** was a resounding success. We had a fantastic turnout of **99 attendees**, including clinicians, physicians, facilitators, managers, industry partners, and school health partnership nurses who participated in our all-day Zoom session on Thursday, March 9, 2023.

We want to express our appreciation to our presenters who made our event possible by sharing their wealth of knowledge and experiences, highlighting the innovative approaches to diabetes care and insulin pump management that are being implemented across the province.

Recordings of several sessions from this year's event, as well as links to the recordings from 2022, will be available here until 2024:

We are currently looking into several questions that were raised during the **Question & Feedback** portions of the day Q & A and feedback sessions, and we will provide updates as soon as we have more information available.

For those who complete **CDE® certification** maintenance by credit portfolio option, this session can be documented as:

- Active Category: 2C: Web Based Learning Event
- Contact Duration (time): 5 hours
- Credit value: 2.5
- Suggested CDE® competencies:
 - 2.D Identifies various nutrition strategies for diabetes management
 - 3.C Identifies specific therapeutic regimens based on client characteristics and properties of treatment
 - 3.D Describes various insulin delivery systems and their advantages and disadvantages
 - 8.B Adapts management strategies based on principles of motivational interviewing
 - 8.G Applies the principles of behavioural change to diabetes management.

We want to thank those who took time to complete our evaluation. Below is a summary of the valuable feedback that we received that will contribute to our future event planning.

95% of attendees were **satisfied** with Pump Day 2023

Nearly all attendees found **presenters** to be **knowledgeable & engaging**; they liked the **amount of information** & plan to **incorporate it into practice**

Looking ahead, **most** attendees want to see **more real-life scenarios** & **many** want **more time for networking**
